

ByeongSeok Moon

Researcher & Developer

alex9925@korea.ac.kr | github.com/BSM00N | linkedin.com/in/bsmoon

Research Interests: Computer Security, Hardware Security, Anti-Tampering, Web3 Security Auditing, Vulnerability Analysis, Machine Learning for Security

EDUCATION

2023–Present	Korea University, B.S. Department of Cyber Defense; Computer Science & Security
2020–2022	Gwangju Science Academy for the Gifted High School; Computer Science & Math

RESEARCH AND SECURITY EXPERIENCE

2025–Present	Hardware Security Lab , Korea University Undergraduate Researcher; Anti-tampering
2025	KITRI Best of the Best (BoB) 14th Vulnerability Analysis Track; Project Lead, SAPIENS
2025	Rutile: Web3 AI Audit Agent Co-member & Researcher
2024	OUTTA AI Lab AI Bootcamp, Deep Learning Course

AWARDS AND SECURITY COMPETITIONS

2026	DEFCON CTF Finalist [ColdFusion], DEFCON
2026	Lake CTF Final Participant [CyKor], Lake CTF
2025	DEF CON CTF Final 10th – Finalist [ColdFusion], DEF CON
2025	The 12th National ICT Convergence Competition – 4th Prize (SAPIENS AI), CBIST & CBAI
2025	KoS CTF – 2nd Prize , Korea University X Sungshin Women’s University
2024	Cryptographic Analysis Contest – Special Award , KIISC

LEADERSHIP AND ACTIVITIES

2026	2026 Singapore Startup Ecosystem Immersion Program Participant; Korea University x NUS x NTU
2025–Present	Korea University Hacking Club [CyKor] Member
2024–Present	Korea University Algorithm Club [MatKor] Executive
2023	Korea University Algorithm Club [MatKor] Member
2024	Department of Cyber Defense, Korea University Student Council President
2023	Student Union of Department of Cyber Defense Member of Culture Bureau

TECHNICAL SKILLS

Programming and Systems: Python, Solidity, Verilog

Security and Research: Computer Security, Hardware Security, Blockchain, Machine Learning, PyTorch

PUBLICATION

2025	SAPIENS: Ontology, Graph RAG, Agentic AI 를 통합한 지능형 Web3 보안 감사 시스템 설계 <i>Design of Intelligent Web3 Security Audit System Integrating Ontology, Graph RAG, and Agentic AI.</i> KIISC
